## Access care and support from home

You can tend to your health and wellness needs without leaving the comfort of home.

### **NurseHelp 24/7**

When your health questions can't wait, contact NurseHelp 24/7<sup>SM</sup> by phone or online chat – at any time of the day or night.

A registered nurse can evaluate your symptoms, discuss treatment options, and determine whether you need to see a doctor. This can help you avoid unnecessary trips to the doctor's office or emergency room for non-emergency care.

Go to **[blueshieldca.com/nursehelp](https://blueshieldca.com/nursehelp)** to learn more.

---

### **Teladoc**

Whenever you need non-emergency medical care, Teladoc's U.S. board-certified doctors are available 24/7 by phone or video. They can diagnose and treat common medical conditions like the flu and prescribe medications.

You can also talk to a licensed mental health professional for help managing stress, addiction, depression, and more. Mental health appointments are available for members ages 13 and older from 7 a.m. to 9 p.m., seven days a week.

To request an appointment, first register at **[blueshieldca.com/teladoc](https://blueshieldca.com/teladoc)** and complete your medical history. You can also call **800-Teladoc (835-2362)** [TTY: **(855) 636-1578**].

---

### **LifeReferrals 24/7**

Call LifeReferrals 24/7<sup>SM</sup> anytime to talk with experienced professionals ready to help you with personal, family, and work issues.\* You are eligible for three visits by phone or video chat in a six-month period with a licensed therapist. Legal and financial consultations are also available.

For more information, visit **[blueshieldca.com](https://blueshieldca.com)**, scroll down to "Care programs", and select *Get support*. You can also call **(800) 985-2405**.

---

### **Amazon Pharmacy home delivery**

Skip the line at the pharmacy: Have your prescription drugs delivered to your door with no-cost shipping through Amazon Pharmacy. If you take medications for a chronic condition such as diabetes, ask for an extended supply† so they're always around when you need them. Visit **[blueshieldca.com/pharmacy](https://blueshieldca.com/pharmacy)** to learn more.

\* Some services may not be available to all Blue Shield members; check your plan's *Evidence of Coverage* to see what your plan covers. Any costs associated with using the community resources are the responsibility of the member. Legal consults involving disputes with your employer (or other work-related issues) are excluded.

† Up to 90 days is available with an extended supply for most prescription drugs. Most specialty drugs and opioids are limited to a 30-day supply.

# Get care outside your home

You have options for care besides a regular doctor's office visit.

## Urgent care centers

Urgent care centers provide many of the same medical services as a doctor's office, often with extended hours. Staffed with qualified professionals, these centers are ideal for non-emergency care when your doctor is not available – and can save you time and money compared to an emergency room visit.

If you are an HMO member, before you go to an urgent care center:

- Always call your primary care physician's (PCP's) office, their medical group/Independent Practice Association (IPA), or Blue Shield customer service for instructions and help finding the closest affiliated urgent care center.
- Make sure the urgent care center you visit is affiliated with your PCP's medical group/IPA or your HMO plan may not cover the services you receive.

If you are an EPO, POS, or PPO member, you can locate a local urgent care center by going to [blueshieldca.com/fad](https://blueshieldca.com/fad) and choosing *Urgent care*.

**If you feel like you're experiencing an emergency, call 911 immediately or go to the nearest emergency room.**

---

## MinuteClinic

You can get virtual and in-person non-emergency health care at CVS and Target Clinics in most of California through MinuteClinic®.\*

Staffed with board-certified nurse practitioners, CVS and Target offer affordable access to care seven days a week, including evenings. You may need an appointment for a virtual visit.

You can find hours of operation and a list of services at [minuteclinic.com](https://minuteclinic.com) and [target.com/clinic](https://target.com/clinic).

---

## Vaccines at retail pharmacies

Our large network of retail pharmacies offers several preventive vaccines without a prescription, including the annual flu shot, at no extra charge.† You can still get vaccines at your doctor's office instead of a pharmacy if you prefer.

For more information, go to [blueshieldca.com/pharmacy](https://blueshieldca.com/pharmacy) and select *See formularies*. Then choose your group plan type (for example, large group) and select *Vaccine list*. You can also call the customer service number on your ID card.

\* Retail clinics are available to Blue Shield EPO and PPO members and to POS members through their PPO (Level 2) benefits. HMO members should check with their doctor's office before visiting a retail clinic. HMO plans may not cover the services received if the clinic is not in the medical group/IPA of the member's PCP.

† Members enrolled in an eligible non-grandfathered plan with an outpatient prescription drug benefit can receive coverage for select vaccines at a participating pharmacy at no extra cost.
